

Keep the happy in your holidays

Six safe shopping tips for the season

1

Online

Check the URL. The "s" in "https" shows it's secure. "Click to pay with Visa" for an extra layer of protection.

2

In-app

Use a strong password for each account or switch to fingerprint or facial recognition for even stronger logins and payment authentication.

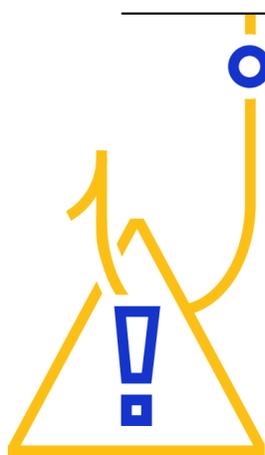

3

In-store

Use a payment card with a chip or contactless symbol, or a mobile wallet.

And remember...

Don't get phished

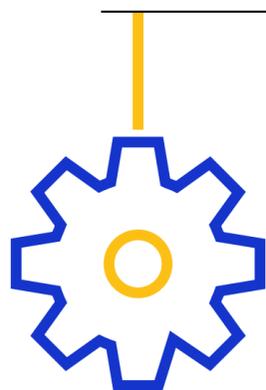

Keep personal information to yourself. Don't click on links before verifying they'll take you where they say they will.

4

Turn on purchase alerts

They provide near real time notification by text message or email of purchases made with your account.

5

6

Update to be safe

Always install the latest software updates before shopping on your computer, tablet or phone.
