

Visa Russian Federation Interchange Reimbursement Fees¹

Effective 1 February 2021, the following interchange rates apply to domestic purchase transactions processed through Visa Payment System. These domestic interchange rates are applicable for Visa branded consumer and commercial cards issued in the Russian Federation and used at merchants that are acquired in the Russian Federation.

Visa uses interchange reimbursement fees as transfer fees between issuers and acquirers to balance and grow the payment system for the benefit of all participants in the market. Merchants do not pay interchange reimbursement fees; merchants pay a "merchant discount rate" to their acquirer for variety of processing services provided by the respective financial institution and interchange may only be one component of their overall merchant discount rate.

Industry and High Volume Programs
