

## Visa Approved Security Assessors (SA) List

**Last Updated: 16 April 2018**

Defined program participants that are required to validate compliance to one or more of the following Visa security programs; Access Control Server (ACS), Approved Vendor Program (AVP) and PIN Security must use a Visa Approved Security Assessor (SA) identified on this list for their onsite validation review. Program participants are not required to use Approved SAs for any off-year or mid-year validation efforts. Furthermore, organizations that are not defined program participants and are not required to submit compliance validation to Visa, may use internal audit staff or other qualified assessors for security reviews. Sponsored entities that are not designated program participants, should contact their sponsoring financial Institution for further guidance.

Contact the regional Visa Risk Representative for additional information on program compliance requirements.

**PLEASE NOTE: Visa no longer manages security assessors for 3DS Security Assessments (formerly called ACS). ACS Service Provider onsite assessments must be performed by a PCI 3DS QSA. Please visit the PCI SSC Assessor website to identify an approved 3DS QSA. [https://www.pcisecuritystandards.org/assessors\\_and\\_solutions/3ds\\_assessors](https://www.pcisecuritystandards.org/assessors_and_solutions/3ds_assessors).**

**LEGEND**

**PCI DSS QSA:** PCI DSS qualified security assessor eligible to perform PCI DSS assessments.

Company Name	Security Assessor Name and Contact Information	Location	Market(s)	Supported Languages	Approved to Perform the Following Services			
					PCI DSS QSA	AVP-Logical	AVP-Physical	PIN

**ACS:** Access Control Service (ACS) security assessments must now be performed by a PCI 3DS QSA. Visa no longer manages security assessors for this program. Please visit the PCI SSC Assessor website to identify 3DS QSAs. [https://www.pcisecuritystandards.org/assessors\\_and\\_solutions/3ds\\_assessors](https://www.pcisecuritystandards.org/assessors_and_solutions/3ds_assessors).

**AVP Logical, Physical:** AVP security assessments are required for vendors participating in the Visa Approved Vendor Program (AVP). Third party vendors identified as card manufacturers, magnetic-stripe card personalizers, IC personalizers, IC pre-personalizers, cloud-based providers and over-the-air (OTA) personalizers.

\* *The AVP Mobile, OTA and Cloud categories have been incorporated into AVP Logical.*

**PIN:** PIN Security Assessments are required for organizations that are part of the Visa PIN Security Program. These are organizations that process PIN data or perform key management activities on behalf of Visa clients.
